

Refer Your Patients Today!

Mālama Kidney Center serves as an extension of physicians and their practice to provide education, support, and care coordination for patients with chronic kidney disease. We believe that patient exposure to intensive preventative education can significantly decrease the complications associated with dialysis initiation and slow the progression to ESRD.

Our Services

Health Education

Tailored kidney education with an APRN and Care Manager

Nutrition Therapy

One-on-one medical nutrition therapy with a Registered Dietitian

Care Management

Care coordination and health coaching

Behavioral Health

Psychosocial support provided by a Licensed Social Worker

Why Choose Us?

Mālama Kidney Center can extend your capability to help patients with chronic kidney disease through:

- ✓ Increased engagement with patients and their providers
- ✓ Improved adherence to their medication regimen
- ✓ Decreased ED and hospital admissions
- ✓ Focused and attainable health goals
